Change Your Body, Change Your Game With Power Golf Therapy!

Don't seem to have the "pep in your step" on the golf course that you used to? We offer a technique designed to loosen your hips and lower back via neuromuscular release massage to increase your range of pain-free motion.

BENEFITS OF POWER GOLF THERAPY

play pain-free golf • end recurring swing faults • gain in accuracy & control • increase playing longevity • more power

Why is **POWER GOLF THERAPY** different? **BRIAN BOOTH** of Sherman -- trained at the Scottsdale, AZ, Neuromuscular Performance Institute and is the only therapist trained for this technique in north Texas -- explains: "Golfers wonder why they can't seem to correct their same old swing faults, such as not finishing the swing, over or under rotation, and dip or sway in their backswing. The answer is buried deep in your muscular system. I'm trained to quickly identify and release years of restricted holding patterns in the muscles that control your golf swing, no matter what your age is. You'll experience quick results, such as an increase of 10-30 degrees in swing range of motion in only 30 minutes of Power Golf Therapy." To schedule your consultation, contact Brian Booth today at 903.891.3500. The therapy benefits golfers of all ages, male or female, and can be done while you're fully clothed. His office is located at 315 N. Travis, Suite C-5, which he shares with Serenity Day Spay. You're invited to visit their website at www.serenityofsherman.com.
