How To Kill Your Business During A Recession In Five Easy Steps...

- 1. DON'T ADVERTISE -- Pay no heed to the growing number of competitors trying to take business away from you.**
- 2. DON'T ADVERTISE -- Remind yourself that it costs too much and you don't get anything out of it anyway. So, slash your advertising budget.**
- 3. DON'T ADVERTISE -- Disregard the fact that advertising is an investment in selling, not an unnecessary expense. After all, you've been in business so long that customers will automatically come through your front door, right?**
- 4. DON'T ADVERTISE -- Ignore the tremendous growth in potential new Texomland customers, and also forget about your past customers who need to be periodically reminded and urged to shop with your business.**
- 5. DON'T ADVERTISE -- Pretend that everyone has ESP and knows what you have to offer, including new/seasonal merchandise or service products.**
